

WALLCHEMY

BRAND GUIDELINES

Our Mission

THE ALCHEMY OF SPACE

At Wallchemy, we practice a quiet kind of alchemy, where ordinary walls are transformed into realms of feeling, memory, and imagination.

LIVING SURFACES

We believe the true beauty of a space lies in its surfaces. At Wallchemy, we work with natural elements — not against them — to reveal textures that feel raw, honest, and alive. Every wall is transformed through material, craft, and depth into a surface that speaks for itself.

Logo

LOGO INSPIRATION

In alchemy, the four elements are brought into balance through Aether—the essence of unity and perfection.

Our symbol interprets this idea through form—where distinct elements converge into a single, harmonious identity. This becomes the foundation of our design philosophy: creating textures that balance contrast, depth, and subtlety to achieve understated luxury.

LOGO USAGE GUIDELINES

Our primary logo is the core expression of Wallchemy — a wordmark that carries the essence of our identity. To preserve its clarity and presence, it must always be given space to breathe. Maintain a clear margin around the logo equal to at least one “shining star” on all sides, ensuring it stands distinct and undisturbed in every application.

The secondary mark is a supporting element — subtle, versatile, and expressive. It is to be used thoughtfully to enhance compositions where the primary logo is absent, or as a design accent across packaging and creative assets. Never let it overpower, but allow it to quietly add to the sense of transformation and magic that defines Wallchemy.

LOGO USAGE GUIDELINES

DOs

Use the black logo on light backgrounds for optimal clarity and contrast.

DON'Ts

Use the white logo on dark backgrounds to maintain visibility and visual balance.

LOGO USAGE GUIDELINES (PRINT)

Embossing or Debossing on Textured Paper

Gold Foiling on Textured Paper

Colour Palette

COLOUR GUIDELINES

Primary Colors

Secondary Colors

The palette uses warm, muted neutrals to create a premium yet approachable brand identity. It ensures the brand stays in the background while the product—wall designs—remains the hero. The tones are inspired by natural materials, which aligns with interior aesthetics and creates a sense of calm, timelessness, and trust. This is especially important in a high-involvement category like home décor where consumers value longevity and taste over trend.
